

From 1st January 2021, as part of the UK's departure from the EU, new rules on the movement of goods are applicable.

Due to changes around Brexit customs clearances will be needed to import / export goods. Exhibitors and contractors will be required to produce shipping documentation. This may include commercial invoices containing product descriptions, tariff numbers and terms of shipping.

Due to the complex nature of clearing exhibition goods, it is recommended you contact Agility Fairs & Events, or their local partner offices, who are more than happy to help with any further queries regarding shipping guidelines and further information.

The organisers cannot take responsibility for anyone's deliveries/shipments. They are also unable to provide EORI numbers. Do make sure to coordinate and speak to Agility.

By preparing in advance and shipping early you are reducing the risk of delays or even your goods not turning up on time. Don't risk it, act now and book Advanced Warehousing. Failure to comply with the new requirements and shipping timeframes may result in significant delays to your goods.
